Legislation Governing Early Entrance to Kindergarten

- A parent may request *early* admission to kindergarten if the child turns five years of age after the district's kindergarten entrance date (August 1 or Sept. 30) and before January 1. The local board of education shall determine entrance through a standardized testing program.
- Children who will not yet be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested shall also be evaluated for possible early admittance if referred by an educator within the district, a pre-school educator who knows the child, or pediatrician or psychologist who knows the child.
- Acceleration is the Law (House Bill 79 amended to House Bill 66 – June 30, 2006. Please refer to the State of Ohio's Model Student Acceleration Policy for more information.

Avon Local School District

- The Avon Local School District considers a child eligible for entrance into “regular” kindergarten if s/he attains the age of five on or before August 1st of the year s/he applies for entrance. A child under the age of six (6) who is enrolled in kindergarten will be considered of compulsory school age.
- By parental request a child may be tested for *early* admission to kindergarten if s/he will be five (5) years of age between August 1st and January 1st, inclusive, and exhibit the mental, social and emotional standards established by the Avon Board of Education. A checklist will be provided for the student's physician to complete. **If your child turns 5 years of age after January 1st and you believe s/he is a viable candidate for early entrance, please contact the Principal at the Avon Early Learning Center.**
- On June 20 2006 the Avon Board of Education adopted an *Academic Acceleration Policy*:

“Children who are referred for evaluation for possible accelerated placement 60 or more days prior to the start of the school year shall be evaluated in advance of the start of the school year so that the child may be placed in the accelerated placement on the first day of school.”

“Children who will not yet be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested shall also be evaluated for possible early admittance if referred by an educator within the district, a pre-school educator who knows the child, or pediatrician or psychologist who knows the child. Children who will not yet be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested may also be evaluated for possible early admittance at the discretion of the principal of the school to which the student may be admitted.”

Is early entrance to kindergarten the best choice for your child?

Early entrance should be viewed as a means of meeting a child's *needs*. Developmental readiness is the key to determining whether or not early entrance is appropriate. Even though a child may have a great deal of ability, s/he may not be ready for kindergarten. Social maturity, personal development, and motor development are important factors for a child's success in school.

Early entrance is *designed for the exceptional child* who is both academically ready as well as developmentally mature when compared to others his or her chronological age. This opportunity is designed as a measure to meet individual differences in school readiness.

Some considerations when determining if early entrance is right for a child:

- Is my child capable of working in a classroom setting with children who are one year older than him or her?
- Will my child be frustrated by this placement?
- What are the possible long-term impacts for my child as s/he progresses through elementary, middle and high school (e.g., beginning college at a younger age).
- Early entrance is not designed as a replacement for child care. Is this a *need* or a *want*?
- Do I understand the expectations for students in kindergarten today?
For example, students are expected to ask and answer questions about key details in a text, retell familiar stories with details, ask and answer questions about unknown words in a text, and identify similarities and differences between two texts on the same topic.

There is a difference between *ability* and *achievement*. Some children may appear exceptional simply because of their access to opportunities (e.g., preschool programs, parents working with them on skills, or access to learning materials). Early entrance is designed for the child who not only has ability but easily achieves when presented new material.

Once the decision has been made for early entrance, the choice is difficult to reverse. If a child is evaluated as a good candidate for early entrance to kindergarten, it is important that all stakeholders are supportive of the decision.

What is expected of students in kindergarten?

Kindergarten, like many other areas of education, has changed considerably over the past couple of decades. Today's kindergarten students are engaged in a rigorous instructional program. Please take the time to review the following information:

- Parents can easily access the *Early Learning Content Standards* as well as the subject specific *Academic Content Standards* for English Language Arts, Mathematics, Science and Social Studies on the *Ohio Department of Education* website.
- Please see the attached *Kindergarten Readiness Checklist* on the next page which provides guidance in determining your child's readiness for kindergarten.
- Kindergarten in the Avon Local School District is a *half-day* or a *full-day program*. The half-day program runs from 9:00 a.m. to 12:00 p.m. or 12:00 p.m. to 3:30 p.m. The full-day program begins at 9:00 a.m. ending at 3:30 p.m. Students are expected to participate in the academic program throughout the day.

Kindergarten Readiness Checklist 2018-19

To do well in school, children need to be supported and nurtured in all areas of development.

It is also important that your child is physically, socially and emotionally ready for school. This checklist can help serve as your guide. But please remember, young children change so fast. If they cannot do something this week, you may see them do it a couple of weeks later.

Is your child ready for kindergarten? Ask yourself these questions:

Development Area	Tips and Activities to Help Prepare Your Child
<p>Physical Skills Does your child...</p> <ul style="list-style-type: none"> • enjoy outdoor play such as running, jumping, and climbing; • draw and trace basic shapes; • cut with scissors; • bounce a ball; • ride a tricycle? 	<ul style="list-style-type: none"> • Materials that will help your child develop the motor skills needed to learn to write include crayons, markers, pencils, glue, scissors, paper and paint, puzzles, legos and blocks. • Activities that will help your child's coordination include climbing, jumping, skipping, playing ball, using playground equipment and riding a tricycle.

Applying for Early Entrance to Kindergarten

- If you believe that your child may be a good candidate for early entrance, please obtain an information/application packet from The Principal at Avon Early Learning Center School, or the Director of Curriculum for the Avon Local School District. You may call the Principal of Avon Early Learning Center at (440) 934-5124 to have an information/application packet mailed.
- Once the application has been completed, it needs to be returned to the Principal of Avon Early Learning Center *no later than March 1st* in the year for which admission is being requested.
- An observation by a district representative in a preschool setting *may* need to be scheduled for your child. *Parents will be contacted if this observation is needed.* While some children may be cognitively ready for kindergarten, they may not be developmentally ready. This additional information may be needed to assess the social and emotional skills necessary to be successful in a school environment.
- The school psychologist will coordinate the evaluation process. *The evaluation will be completed within 45 days of the submission of application.*
- Once the evaluations are completed, an acceleration evaluation committee will convene for the purpose of conducting a fair and thorough evaluation of the child. This committee may include the following:
 - 1) the Avon Early Learning Center principal
 - 2) a kindergarten teacher
 - 3) a parent *or* legal guardian of the referred student *or* a representative designated by a parent *or* legal guardian of the referred student
 - 4) a gifted education supervisor
 - 5) a school psychologist

How will my child be evaluated for early entrance to Kindergarten?

- Early entrance evaluation is completed in the spring.
- Because developmental readiness is important for success in kindergarten, students who are viable candidates for Early Entrance to Kindergarten are expected to be developmentally “on track” with the typical kindergarten student. Should a student meet the identification criteria for Superior Cognitive identification but fail to meet the developmental readiness assessment, the acceleration team (principal, kindergarten teacher, gifted supervisor, parent and/or legal guardian(s), and school psychologist) will then discuss and reach consensus as to what placement is best for the child. The *Iowa Acceleration Scale, 3rd Edition* will be the guide for early entrance and whole grade acceleration.

Instruments used:

Individual Intelligence Tests

Wechsler Preschool and Primary Scale of Intelligence-Fourth Edition (WPPSI-IV)

According to the Iowa Acceleration Scale, a student who achieves a score of 115 or higher on the WPPSI-IV is a viable candidate for acceleration. Students who do not achieve this score will not be considered for early entrance to kindergarten.

Superior Cognitive identification (gifted) is 130 (minus the Standard Error of Measure, 127)
